Common Core Algebra II. In this course students will learn about a variety of advanced topics in algebra. Students will expand their understanding about functions by learning about polynomial, logarithmic, and trigonometric functions. These new functions along with linear, quadratic, and exponential, will be used to model a variety of problems, including compound interest, complex numbers, growth and decay, projectile motion, and periodic phenomena.

Common Core Algebra II - eMathInstruction

Year-at-a-Glance (YAG) is a document that informs parents and students of the recommended pacing and content standards for selected courses. It includes the topics to be taught week by week each quarter and a list of instructional resources. The YAG is only a recommended pacing guide; school leaders and teachers make the final decision regarding the pacing of any program of study.
