Decoding the City : How Big Data Can Change Urbanism by ...

Rather, as urban thinkers such as Sir Patrick Geddes once stressed, the real emphasis is on the power of continuous human settlement—and inspiration gleaned from a dynamic city over time.. The humble acceptance of the long-term reminds us, according to the Scottish architectural historian Miles Glendinning, that change is a constant, and that specific themes of long-term habitation can ...

myurbanist | Urbanism evolving, with law in mind

The growth of large cities can be attributed to their role as economic engines in a rapidly globalising world. Urban development programmes such as the Jawaharlal Nehru National Urban Renewal Mission (2005-2014) allocated the bulk of funds to large cities (70 per cent to large cities and 30 per cent to smaller towns). Current infrastructure development schemes, including the Atal Mission for ...

Pandemic and the city | The Indian Express

Archetype 4: The Developing Urban Powerhouse. Bangkok and Buenos Aires are typical of this city archetype. Both are modern, rapidly growing metropolises with a high population density. Developing urban powerhouses are often found in tropical and subtropical regions. They are composed of multiple distinct hubs clustered along a coastline or river.
