### Hands on Nokia Lumia 1020 Windows Phone Review | TECH CRATES

1020 user, never had this issue. Are you running GDR3 with Nokia Camera? Autofocus will be unreliable if you try to go for macro, the Lumia 920 is much better for closer shots than the 1020. Tap to focus is very reliable, I never get much hunting, only really at night time and you just have to be smart about what you are trying to focus on.

The biggest problem with the Nokia Lumia 1020 camera is its complete inability to take macro shots. Manual focus doesn't work up close (although it should), which leaves you with no option but to hold the camera farther back and use digital zoom or cropping, which isn't ideal and requires very good light.
