I am proud to present my own Batpod! The batpod is a vehicle used by Batman in the Dark Knight and The Dark Knight Rises. The Batpod can be deployed from the back of Batman's tumbler. It is basically a motorcycle, but with some very unique design elements, like guns on the front and a half-lying steering pose.

LEGO IDEAS - The Batpod

Arguably one of the coolest vehicles ever invented (whether it's real or not), the Batpod is no exception. Other replicas of Batman's awesome cycle have been made, but the real thing would cost a boatload to build, so a Vietnamese mechanic named Tùng Lâm decided to make his own poor-man's version by modding a bike he already had.
