## **Pro Tools Metronome Fundamentals | Soundgrains - Music ...**

In Pro Tools, there are a number of ways in which imported audio (from other sessions or other sources) can be made to match up with, and follow, the current session tempo, and this can be set to happen automatically as well as by manual adjustment. For this article, I'll just focus on ways to get Pro Tools to do the conforming automatically.

## **Conforming Imported Audio To Session Tempo In Pro Tools ...**

I suppose conductor mode is so called because the tempo is following a mapped out set of tempos (which can change up or down during a song based on tempo markers and setting), so essentially Pro Tools is being "conducted" by the tempo track markers, as an orchestral conductor would follow a score to set the tempo for the players.
